MDA200

The MDA200 allows a corded or wireless USB headset² to connect to and switch between calls from both PC and desk phone.

MSRP \$129.95

1. Add desk phone connectivity when used with MDA200.
2. For a list of Plantronics headsets that are compatible with MDA200, visit plantronics.com/compatibility.

Technology Legend

A2DP

A Bluetooth® profile that allows high quality audio content to be streamed from one device to another. Listen to streaming media, music and navigation through your headset.

Active Noise Cancelling (ANC)

Technology that reverses surrounding sound waves to cancel low frequency noise in order to isolate and minimize ambient noise.

Dynamic EQ

Optimizes voice quality on calls and automatically adjusts EQ settings when listening to music or for multi-media playback.

Immersive Audio

Specially designed ear cushions and headband reduce background noise and allow you to focus.

Smart Sensor Technology

Built-in sensors deliver automatic functionality, like answering a call by putting the headset on, and automatically transferring calls between smartphone and headset.

SoundGuard

Acoustic limiting for protection against sounds above 118 dBA.

SoundGuard DIGITAL

All the benefits of SoundGuard, plus anti-startle protection which detects sudden increase in sound and eliminates the increase, and time weighted average (TWA) measurement which prevents average daily sound exposure from exceeding 85 dBA.

Wideband

Frequency range up to 6,800Hz. Meets TIA-920 standard for genuine wideband response.
