

DEVICE MANAGEMENT AT SCALE, INSIGHTS THAT MATTER

BENEFITS

- Avoid lost passwords and frustration with single sign-on access meant just for your individual role
- Onboarding one or thousands of devices just got a whole lot easier with centralized provisioning
- Provide your end users with an all-in-one app that allows them to adjust personal settings, keep their software up to date, get support, and improve their workday
- Extend your reach and increase control using interactive maps and filters to locate Poly devices
- Do more for your remote workforce to keep them happy and their devices functioning at peak performance through intelligent cloud-to-app connections for management and insights.

POLY LENS

Make collaboration better for your employees, no matter where they work or the Poly supported device they choose. Poly Lens gives you better visibility into modern workspaces across the entire organization. Getting started is simple. IT professionals can remotely inventory, monitor, and troubleshoot Poly devices from a single pane of glass. Common tasks such as applying bulk software and policies are streamlined to allow you to do more with your day.

An important part of any investment is knowing how it's performing. Poly Lens gives you a window into collaboration environments across your entire organization, with a spotlight on how devices are being used. The insights dashboard intelligently elevates the most important information to the top of the page for a quick review or deeper research.

Accessed from anywhere, Poly Lens is powered through a robust cloud service delivering flexibility, and security, adding value without heavy IT lifting. No need to buy servers means more bang for your budget. Everything you need to make the most of your workspace is right at your fingertips.

- Leverage simple device onboarding one or many devices within minutes
- Manage voice, video, and headsets within a single interface
- Use intelligent newsfeeds to monitor connection status and device health
- Do more, in less time with bulk provisioning policies
- Enable users with a powerful all-in-one app for their personal collaboration devices
